EDUCATION

Texas College of
Management and IT

COVER LETTER BY

SULAV DANAI

FRONT END DEVELOPER

DEAR Sir/Mam

I am writing to express my strong interest in the Entry Level Frontend Developer position at PolygonPlay. As a recent graduate with a passion for web development and a solid foundation in frontend technologies, I am excited about the opportunity to contribute to your team and help create immersive digital experiences.

During my studies in Computer Science at Lincoln University, I gained hands-on experience in HTML, CSS, and JavaScript, which are essential skills for a frontend developer. I also completed several projects that involved building responsive and user-friendly websites, showcasing my ability to translate design concepts into functional code. The dynamic and fast-paced nature of frontend development has always fascinated me, and I am eager to apply my skills and continue learning in a professional setting.

I look forward to speaking with you to discuss how my experience and abilities match your needs. I will call you on the day of the week to see what day and time fit your busy schedule. Don't hesitate to contact me at your phone number or contact me by email at your email address should you have any questions. I look forward to speaking with you.
